Deadline for manuscript submissions:
31 December 2022

Message from the Guest Editors

The International Symposium on Remote Sensing 2022 (ISRS 2022, https://isrs2022.sciforum.net/) will be a fully virtual meeting to provide all members of our community with the opportunity to participate in the annual ISRS event. This is the premier symposium that provides all participants with invaluable opportunities for catching up on state-of-the art techniques and the latest developments in remote sensing but also serves for sharing new ideas and information with colleagues and young scholars engaged in similar studies, research, or activities. This Special Issue in *Remote Sensing* is planned in conjunction with ISRS 2022 and will include peer-reviewed feature papers presented at ISRS 2022. In the cover letter, authors should provide the corresponding paper number of ISRS 2022.

Special Issue
